

Recycling plays a significant role in the growing concern of **climate change!**

Also, recycling has the potential to significantly reduce our **waste management costs** so we can spend money on more important projects

## Current Recycling Facts

Airports and airlines recycle less than 20 percent of the 425,000 tons of passenger-related waste they produce each year

<https://www.nrdc.org>

Canada recycles about 27% of its waste today

<http://www.statcan.gc.ca>

Between Thanksgiving and New Year's, an extra million tons of waste is generated each week

<https://www3.epa.gov>

88% of Canadian households have access to glass and paper recycling programs

<http://www.statcan.gc.ca>

for more information

# WE'RE STARTING TO RECYCLE

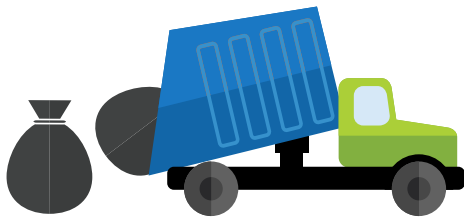

## Recycle Better, Together

WITH COLLECTION ANALYTICS SOFTWARE

POWERED BY  **BUSCHSYSTEMS**

We're starting a **Recycling Program** here at:

With a **goal** of:

**REDUCING WASTE**

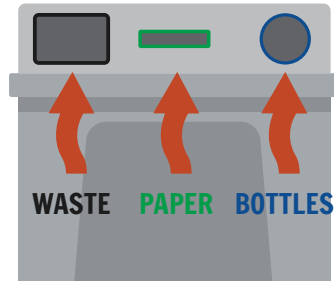

**CONSERVING ENERGY**

**& REDUCING OUR CARBON FOOTPRINT**

How will **we** do this?

**ADDING CENTRALIZED STATIONS**

**KEEPING SIGNAGE/LABELS CONSISTENT**

**CONTINUOUSLY EDUCATING OUR TEAM**

Our **Recycling Practices** include:

Each desk having a deskside container for **paper recycling**

That, when full, will be emptied into our conveniently located Centralized Containers
